TAKE IT EASY TOOL FINDER

Take it easy tool finder system is present on all our premium quality bit, Impaktor, Diamond, BTZ and BTH. (Impaktor, BTZ, BTH in the bit-box range)

The tool finder system allows the user to quickly and accurately select the correct size and profile. Making it harder to incorrectly choose the wrong bit which can lead to rounded out screws or damaged bits.

IMPACT

Applications involving high resistance where cam-out is an issue leading to bit failure, Impaktor is ideally suited and solves the problem.

Part of the the Impaktor TriTorsion system (bits and holder), Impaktor bits are designed for use in all heavy duty machines, but specifically Impact Drivers. Thanks to a best-possible utilisation of the material properties and optimally designed geometry added to the rough diamond coating reducing the danger of any damaging cam-out of the screw head, Impaktor will dramatically extend bit service life.

Bit-Box 15 Impaktor PH

TOP

> Impaktor Diamond TriTorsion bits, for up to 10x longer life in even the most powerful 24v impact drivers

> Impact bits for Hardwoods, ABS plastics, Self Tappers and Masonry screws

05057752001	851/1 IMP DC	+	15 x PH 2x25			4013288	187918

Bit-Box 15 Impaktor PZ

TOP

> Impaktor Diamond TriTorsion bits, for up to 10x longer life in even the most powerful 24v impact drivers

> Impact bits for Hardwoods, ABS plastics, Self Tappers and Masonry screws

05057630001	855/1 IMP DC	+	15 x PZ 2x25			4013288	187901

Bit-Box 15 Impaktor TX

TOP

> Impaktor Diamond TriTorsion bits, for up to 10x longer life in even the most powerful 24v impact drivers

> Impact bits for Hardwoods, ABS plastics, Self Tappers and Masonry screws

05057772001	867/1 IMP DC	+	15 x TX 20x25			4013288	187871
05057775001	867/1 IMP DC	+	15 x TX 25x25				187888
05057776001	867/1 IMP DC	+	15 x TX 30x25				187895

DRILL DRIVER

BTZ

For drill/drivers driving screws requiring heavy duty metal and threaded screw applications. Part of the BiTorsion system (bits & holder) for long service life, BTZ extra-tough bits are designed for universal use in drill/drivers. Thanks to a best-possible utilisation of the material properties and optimally designed geometry BiTorsion bits will dramatically extend bit service life.

BTH

For drill/drivers driving screws designed for timber. Part of the BiTorsion system (bits & holder) for long service life, BTH extra-hard bits are designed for universal use in timber applications. Thanks to a best-possible utilisation of the material properties and optimally designed geometry BiTorsion bits will dramatically extend bit service life.

Bit-Box 20 BTZ PH

TOP

> Bi-Torsion Extra-Tough bits are strong and ductile. Ideal for threaded metal screws and metal applications

		4013288	
05057751001	851/1 BTZ PH	20 x PH 2x25	187956

Bit-Box 20 BTZ PZ

TOP

> Bi-Torsion Extra-Tough bits are strong and ductile. Ideal for threaded metal screws and metal applications

		4013288	
05057761001	855/1 BTZ PZ	20 x PZ 2x25	187970

Bit-Box 20 BTZ TX

TOP

> Bi-Torsion Extra-Tough bits are strong and ductile. Ideal for threaded metal screws and metal applications

		4013288	
05057771001	867/1 TORX * BTZ	20 x TX 20x25	187932
05057774001	867/1 TORX * BTZ	20 x TX 25x25	187949

Bit-Box 20 BTH PZ

TOP

> Bi-Torsion Extra-Hard bits for general construction timbers and materials (Soft Jointing)

		4013288	
05057762001	855/1 BTH PZ	20 x PZ 2x25	187963

Display

TOP

> 10pc Bit-Box displays contain all top bits and are perfect for POS on shop counters prompting impulse buys.

Bit-Box 20 PH

ENTRY LEVEL

> Hard "H" bits are designed for universal use in drill/drivers whilst offering an entry level performance.

			4013288
05057750001	851/1 PH	⊕ 20 x PH 2x25	188014

Bit-Box 20 PZ

ENTRY LEVEL

> Hard "H" bits are designed for universal use in drill/drivers whilst offering an entry level performance.

			4013288
05057760001	855/1 PZ	⊕ 20 x PZ 2x25	188052

Bit-Box 20 TX

ENTRY LEVEL

> Hard "H" bits are designed for universal use in drill/drivers whilst offering an entry level performance.

			4013288
05057770001	867/1 TORX *	⊕ 20 x TX 20x25	187994
05057773001	867/1 TORX *	⊕ 20 x TX 25x25	188007

Bit-Box 20 RZ PH

ENTRY LEVEL

> Specifically designed with drywall screws in mind, reduced shaft diameter allows precision setting of the screws into the panels.

			4013288
05057753001	851/1 RZ PH	⊕ 20 x PH 2x25	187987

Bit-Box 20 V Robertson

ENTRY LEVEL

> Square-Plus for decking applications is a Wera design offering improved surface contact within the screw head and increased performance.

			4013288
05057790001	868/1 V	⊕ 20 x # 2x25	188083
